

ELAINE M. HULL

Curriculum Vitae

March, 2014

Florida State University
Department of Psychology
Tallahassee, FL 32306-1270

Phone: (850) 645-2389
Fax: (850) 644-7739
Email: hull@psy.fsu.edu

EDUCATION:

Indiana University, Bloomington, IN	Ph.D. (1967) Psychology
Austin College, Sherman, TX	B.A. (1963) Psychology

EMPLOYMENT HISTORY:

2004–present	Florida State University, Professor of Psychology and Neuroscience
2003–2004	State University of New York at Buffalo, Research Professor of Pharmacology and Toxicology
1986–2004	State University of New York at Buffalo, Professor of Psychology
1973–1986	State University of New York at Buffalo, Associate Professor of Psychology
1967–1973	State University of New York at Buffalo, Assistant Professor of Psychology

RESEARCH INTERESTS:

My research program investigates the neuroendocrine control of male rat sexual behavior. We have shown that dopamine is released in the medial preoptic area (MPOA) as soon as a male rat encounters a receptive female; release is further increased during copulation. Stimulation of dopamine receptors in the MPOA controls genital reflexes and sexual motivation. This brain area is essential for male sexual behavior in all vertebrate species that have been studied, from fish through humans. Testosterone promotes copulation, in part, by up-regulating nitric oxide synthase in the MPOA; the resultant production of nitric oxide increases both basal and female-stimulated dopamine release. We have also shown that serotonin is released in the anterior lateral hypothalamus at the time of ejaculation and contributes to the postejaculatory sexual quiescence, in part by decreasing mesolimbic dopamine release. Recent research centers on the roles of dopamine and glutamate in the increase in sexual proficiency due to sexual experience. Similar mechanisms may underlie other forms of memory and drug addiction. Finally, we are interested in how certain mating-induced transcription factors in the MPOA interact to enhance future sexual behavior and decrease stress and anxiety.

AWARDS AND HONORS:

Chancellor's Award for Excellence in Teaching, SUNY, 1975
Student Association Excellence in Teaching Award, SUNY at Buffalo, 1986.
New York State/Union of University Professionals Excellence Award, 1990
Sustained Achievement Award, SUNY at Buffalo, 2002
Listed in Top 100 Grantees at University at Buffalo, 2002
Named Distinguished Alumna of Austin College, 2003
Phi Beta Kappa, Austin College, Awarded as a distinguished alumna, 2006

GRANT SUPPORT (since 1986, total costs):

\$1,297,371 (2007–2013) Hormone-Neurotransmitter Interactions in the Brain, NIMH. \$225,000 direct costs in year 5 (2011–2012), \$323,400 total costs, year 5 (one year no-cost extension to 2013).
\$1,412,141 (2001–2007) Hormone-Neurotransmitter Interactions in the Brain, NIMH. \$175,000 direct costs in year 5 (2004–2007) (no-cost extension 5/1/06 4/30/07)
\$602,759 (2000–2006) Hormone-Neurotransmitter Interactions in the Brain, NIMH, Independent Scientist Award (salary support). \$112,230 direct costs in year 5 (2004–2005)

\$1,102,150 (1996–2001) Hormone-Neurotransmitter Interactions in the Brain, NIMH (competitive renewal of the previous grant, with a different title)
\$519,630 (1993–1996) Brain Regulation of Male Sex Behavior in Rats, NIMH
\$24,000 (1992–1993) Neurotransmitter Interactions in the Medial Preoptic Area, NSF
\$387,721 (1988–1992) Brain Dopamine Regulation of Male Sex Behavior in Rats, NIMH
\$147,500 (1986–1988) Brain Dopamine Regulation of Male Sex Behavior in Rats, NIMH

GRANT REVIEW SERVICE:

Member F02A NIH study section to review pre- and postdoctoral fellowship proposals (June, 2003, to 2010)
Chair, F02A NIH study section, March–July, 2006
Member, Integrative, Functional and Cognitive Neuroscience-1 Study Section, NIH, (1998–2000)
Member, Psychology, Behavior, and Neuroscience Study Section, NIMH, (1996–1998)
Temporary member: Biopsychology Study Section, NIH (March, 1997); Integrative, Functional and Cognitive Neuroscience-2 Study Section, NIH, (June, 1999; February, 2000; February, 2003)
Member, special NIH study section to review proposals for centers for study of infertility (May, 2002)
Member special NIH study section (August, 2002)
Chair, Special Review Panel, July, 2004
Ad hoc reviewer of two NSF grants

EDITORIAL BOARD MEMBERSHIP:

Hormones and Behavior
Archives of Sexual Behavior
Frontiers in Neuroscience
Co-editor of special issue of *Physiology & Behavior* on Male Sexual Behavior

ADVISORY BOARD MEMBERSHIP:

External Advisory Board for NIH Training Grant, University of Cincinnati Medical School, 2005–2006

RESEARCH SUPERVISION:

25 Ph.D. dissertations chaired
21 M.A. theses chaired
Member of 63 Ph.D. committees
25 undergraduate Honors theses chaired

MAJOR UNIVERSITY SERVICE (since 1986):

Biomedical Advisory Committee, Florida State University, January, 2008–2010
Animal Care and Use Committee, Florida State University, September, 2007–2010; Chair, January, 2008–2010
Member, Faculty Senate, Florida State University 2005–2006, 2010–2011
Member, College of Arts and Sciences Sponsored Research Advisory Group, University at Buffalo, 2003–2004
Executive Committee, Interdisciplinary Program in Neuroscience, University at Buffalo, 1990–1998, 2000–2004
Intercollegiate Athletics Board, University at Buffalo, 1995–1998
President's Research Advisory Council, University at Buffalo, 1986–1989
Member, President's Review Board for Promotion and Tenure, University at Buffalo, 1989–1992

MAJOR DEPARTMENT SERVICE (since 1986):

Director of Graduate Studies, Philosophy Department, Florida State University, 2013–present

Member, Graduate Studies Committee, Florida State University, 2006–2008
Member, Faculty Development Committee, Florida State University, 2006–2008, 2010–2012
Member, Library Committee, Florida State University, 2004–2006
Member, Technology Committee, Florida State University, 2004–2006
Member, Personnel Committee, University at Buffalo, 2002–2003
Chair, Personnel Committee, University at Buffalo, 1999–2000, 2003–2004
Director, Behavioral Neuroscience Program, University at Buffalo, 1986–1998, 2000–2004
Member, Planning and Policy Committee, University at Buffalo, 1986–1994, 2000–2004
Chair, Policy Committee, University at Buffalo, 1986–1987, 1990–1991

MEMBERSHIPS:

Foundation for the Advancement of Behavioral and Brain Sciences, Secretary, January, 2007–December, 2008.
Phi Beta Kappa, Alpha Chapter, FSU, Vice President, September, 2006–August, 2007; President, September, 2007–2008; Secretary, September, 2008–present.
Society for Behavioral Neuroendocrinology, Elected Secretary: July 1, 2003 to June 30, 2005; Chair of Awards Committee, June, 2007–2010
American Psychological Association, Program Chair of Div. 6, Behavioral Neuroscience and Comparative Psychology, 1999–2000; Fellow of Div. 6, 2000–present
American Psychological Society, Program Committee, in charge of Behavioral Neuroscience program, 2002–2004; Fellow, 2003–present
Society for Neuroscience
International Academy for Sex Research, member of Program Committee, 1999–2000
International Society for Psychoneuroendocrinology
New York Academy of Sciences
American Association for the Advancement of Science

ADDRESSES TO INTERNATIONAL CONFERENCES:

Hull, E.M. (2008) Two weeks of invited lectures on Neuroscience, July 26–August 9, 2008, Philosophy Department/Center for Inquiry Transnational, Lomosov Moscow State University, Moscow, Russia.

Hull, E.M. (2007) Dopamine and Male Sexual Behavior. Invited talk at the Gordon Research Conference on Catecholamines, Oxford, England.

Hull, E.M. (2006) Control of Ejaculation: What the Rat's Brain Tells the Clinician (2006). Invited talk at the 10th Annual Meeting of Society for Behavioral Neuroendocrinology, Pittsburgh, PA.

Dominguez, J.M. and **Hull, E.M.** (2006) Getting his act together: Roles of glutamate, nitric oxide, and dopamine in the MPOA. Talk as part of a symposium, Genes, Transmitters, and Sexual Experience, organized by **Hull, E.M.** and R.L. Meisel, at the Winter Conference on Brain Research, Breckenridge, CO.

Meston, C.M., **Hull, E.M.**, Levin, R.J., Sipski, M.L. (2003) Female orgasm. 2nd International Consultation on Erectile and Sexual Dysfunctions, Sponsored by the World Health Organization, Paris, France.

Hull, E.M. (2002) Sex and the Single Rat: Tales of dopamine and serotonin. Talk given as part of a symposium, Neuroendocrinology of Motivation and Reward, Chaired by L. Coolen & **Hull, E.M.** 6th Annual Meeting of Society for Behavioral Neuroendocrinology, Amherst, MA.

Hull, E.M. (2001) All you ever wanted to know about male rat sexual behavior. Invited address, American Psychological Society, Montreal, Canada.

Hull, E.M., Putnam, S.K., & Du, J. (2001) Hormonal control of copulation and preoptic dopamine in male rats. **Hull, E.M.**, Co-Chair, Symposium: Hormones and Brain Functions. International Society of Psychoneuroendocrinology Regional Meeting, St. Petersburg, Russia.

Hull, E.M., Du, J., Lorrain, D.S., Matuszewich, L., & Putnam, S.K. (2000) Dopamine facilitates and serotonin inhibits male rat sexual behavior. Part of symposium: Brain mechanisms that facilitate or inhibit sexual behavior, **Hull, E.M.**, Chair, International Academy of Sex Research, Paris, France.

Hull, E.M., Du, J., Lorrain, D.S., Matuszewich, L., & Putnam, S.K. (2000) Dopamine facilitates and serotonin inhibits male rat sexual behavior. Invited address to 5th Congress of the European Federation of Sexology, Berlin, Germany.

Hull, E.M., Du, J., Lorrain, D.S., Matuszewich, L., & Putnam, S.K. (1999) Dopamine facilitates and serotonin inhibits male rat sexual behavior. Invited address to the 25th Congress of the Turkish Physiological Society, Elazig, Turkey.

- Hendry, B., Althof, S., Benson, G.S., Haensel, S.M., **Hull, E.M.**, Kihara, K., & Opsomer, R.J. (1999) Male orgasmic and ejaculatory disorders. Invited contribution to the First International Consultation on Erectile Dysfunction, sponsored by the World Health Organization (WHO), Paris, France.
- Hull, E.M.** (1999) Dopamine and serotonin influence sexual motivation and copulation in male rats. Invited presentation at an NIMH Workshop: Revisiting the Concept of the Central Motive State: New Perspectives in Affective Neuroscience. Washington, DC.
